

## **Communications Internship Position**

The Nine Mile Run Watershed is a small urban watershed located in Pittsburgh's East End. Covering just 6.5 square miles, the watershed is home to numerous exciting initiatives, including the largest urban stream restoration in the United States completed by the U.S. Army Corps of Engineers.

The Nine Mile Run Watershed Association (NMRWA) complements this amazing physical transformation with a variety of innovative urban ecology projects designed to directly involve the community in helping to improve the health of the watershed.

NMRWA seeks a Communications Intern for an exciting opportunity for summer 2017. This is a chance for a young professional to gain valuable experience working directly with our Communications Coordinator on a local organization's communications platforms. Responsibilities will be tailored to the applicants experience and abilities.

## **Responsibilities**

1. Create print publications to support various NMRWA projects.
2. Research, create, and post social media content on NMRWA accounts.
3. Learn multi-media skills, including videography and photography.
4. Provide written content for websites, blogs, and print materials.
5. Work with program managers as needed to complete projects.

## **Qualifications**

Applicants can be current or graduated students, with course work in writing, communications, and/or marketing. A passion or interest in the environment is preferred.

## **Specifics**

This is an unpaid, part-time (3-6 hours per week) position for the spring semester. In the summer, the hours would be increased up to 15-20 hours per week. This position could start as early as May 1<sup>st</sup>, but we are flexible with the start date.

Qualified applicants seeking a Federal Work Study program are encouraged to apply. This position can qualify for an independent study credit.
